Sunday, June 16, 2024 | *Departure*

More info:

Accommodation: 3 nights in a 4 star hotel .B&B is included.

Price includes: Training, materials, accommodation, Friday dinner party.

Price not includes: Flights, Transfers, Dinners (except Friday dinner party) ,spouse and extra nights.

Course Overview

Although they have been in use for over 30 years, Pterygoid, Trans Nasal, and Zygomatic implants are one of the least understood styles of dental implant treatment. This may be due to the fact that pterygoid and Zygomatic implants are widely considered to be one of the most difficult fixtures to place in all implant dentistry.

This 2-day course will provide knowledge and guidance for incorporating this style of treatment into your full arch dental implant practice.

This course is a comprehensive, detailed, step-by-step lecture that will cover the Zygomatic and pterygoid Implants, surgical and pre-surgical planning, surgical procedures, and protocols including multiple techniques commonly used to place and restore these implants, free hands or guided.

After didactic learning about those implants, course participants will receive hands-on guidance for the placement of pterygoid Trans nasal and Zygomatic implants on both 3D models.

The second day of the course will be dedicated to a live observation and analysis performed by Dr. Holtzclaw and Dr. Dubravica.

Course Objectives

- ✓ Review the history of pterygoid, Nasal and zygomatic implant treatment
- ✓ Anatomical insights related to surgery of atrophic jaws
- ✓ Review indications and contraindications for pterygoid and zygomatic implants
- ✓ Pre-Surgical workup for Full arch treatment planning
- ✓ Review surgical techniques for the placement of pterygoid, Nasal and Zygomatic implants.
- ✓ Review complications associated with Full arch treatments
- ✓ Prosthetic restorations for advanced full arch cases

Speaker

Dr. Dan Holtzclaw

DDS, MS

Dr. Dan Holtzclaw is a Diplomate of both the American Board of Periodontology and the International Congress of Oral Implantologists. Long recognized as one of the world's leaders in full-arch implantology, Dr. Holtzclaw has published over 60 articles in peer reviewed journals such as the Journal of American Dental Association, the Journal of Periodontology, Implant Dentistry, the International Journal of Periodontics and Restorative Dentistry, and Compendium. Dr. Holtzclaw served as the Editor-In-Chief of the Journal of Implant and Advanced Clinical Dentistry for 13 years in addition to serving as an editorial board member and/or editorial reviewer for six additional dental journals.

With over 150 main podium lectures provided at major dental conferences all over the world, Dr. Holtzclaw has been named a "Leader in Continuing Dental Education" by Dentistry Today Magazine for the past 14 consecutive years. Dr. Holtzclaw currently serves as the Director of Fixed Arch Solutions for Affordable Care, LLC, a DSO with over 360 clinics in 41 states. Dr. Holtzclaw is a proud 13 year veteran of the United States Navy who finished his naval career as the periodontist for the US Navy Blue Angels Flight Demonstration Team.

Speaker

Dr. Ivica Dubravica

DMD, MSc

Dr. Ivica Dubravica, DMD, MSc, OMFS, is a distinguished implantologist and educator with a special interest in digital principles and protocols for implant-prosthetic rehabilitation of edentulous patients.

With a passion for continuous learning and a dedication to excellence, Dr. Dubravica has established himself as one of a leading figures in implantology within the region. He earned his dental degree from the Faculty of Dentistry at the University of Zagreb, Croatia, where he achieved remarkable academic success, receiving numerous awards and accolades that laid the foundation for his esteemed dental career. Dr. Dubravica furthered his education through postgraduate studies at Westphals University Munster, Germany, and Facop University, Brazil, solidifying his expertise in implantology and advanced dental techniques.

In 2003, Dr. Dubravica founded the specialist center, DENTAL CENTRE DUBRAVICA, a state-of-the-art facility equipped with a dental laboratory, situated in the picturesque town of Vodice—a renowned tourist destination. Spanning over 2,500 m², Dental Centre Dubravica stands as a beacon of excellence, offering a comprehensive range of medical and dental services.

Dr. Dubravica actively organizes and conducts individual and group courses in implantology. He generously imparts his wealth of knowledge and experience to his team members and fellow dentists, serving as a mentor and inspiration within the dental community.

Cancellation Policy:

We offer a flexible cancellation policy for our courses.

If you need to cancel your registration, we ask that you do so at least two months before the scheduled course date to receive a 50% credit.

If you cancel before the two-month deadline, we will provide a full credit.

Unfortunately, we cannot offer any credit for cancellations made within two months of the course date, unless it is an individual case such as illness, which will be reviewed and decided by the regional manager.

For doctors who have purchased implant packages, we offer credit for product purchases only. This credit is not transferable to other products or services. But you will be able to receive a credit to use for another future course.

If you have any questions or concerns regarding your implant package credit, please contact our customer service team for assistance
